WEB SKILLS

- HTML
- CSS

PROFILE

Information Technology student with a tech-first approach to administrative work. Comfortable managing email, calendars, documents and files, backed by hands-on web basics (HTML and CSS) and a working knowledge of networking and databases. Uses AI tools to draft, research and summarize faster, and picks up new tools quickly.

EDUCATION

Bachelor of Science in Information Technology

3rd Year Undergraduate

Focus areas: web development basics, networking and databases.

SKILLS & EXPERTISE

Admin & Virtual Assistance

Email and inbox management, calendar scheduling, document and spreadsheet preparation in Google Workspace and MS Office, task tracking with Trello and Notion, team communication in Slack, and organized file management.

Coding & Technical

Builds and styles web pages with HTML and CSS. Basic understanding of networking and databases. Able to do basic troubleshooting and quickly research solutions.

AI Productivity

Prompts ChatGPT and Claude for email drafting, research and content summarization, saving time while keeping the final output accurate and professional.

WHAT I BRING

Reliable, organized and detail-oriented, with the technical background to solve small problems on my own and the AI skills to work efficiently.
